**Senior Requirement** (any 3000-level BC seminar, Individual Projects, or Senior Research Seminar, taken in the senior year):

**Additional Psychology Lectures or Seminars** (one, two, or three, bringing the total of PSYC courses to ten):

**One course from a cognate discipline** (anthropology, computer science, economics, linguistics, philosophy, and sociology):

**Two Semesters in an outside science, each with a laboratory component:** (chosen from astronomy, biology, chemistry, environmental science, or physics).

Submit a completed copy of this form to the department administrator by the drop date of your final semester.

- A letter grade of C- or better must be earned in all PSYC courses applied to the major. The three required courses outside of Psychology can be graded Pass/D/Fail, as long as you receive a Pass.
- You cannot receive credit for two courses that are considered to be equivalent. Refer to our “Overlapping Courses” list.
- Only two semesters of the following courses may count towards the major: BC3465/66 Toddler Center Seminar, BC3591/92 Senior Research Seminar (senior thesis), BC3599, 3601-3608 Individual Projects.
- Students with AP or IB credit are exempt from BC1001, but they must still complete ten courses in Psychology.
- Double majors and minors in Economics may use ECON BC2411 to fulfill the Stats requirement for Psych.
- Group A, B, and C labs must be taken with their accompanying lectures in the same semester.
- Prior to FA12, Group A, B, and C labs and lectures were listed as a single course, e.g., BC1118 & 1119 was BC1117, and only lecture was BC1119; the other labs follow the same pattern.
- PSYC BC3473 Field Work Seminar in Psychological Services and Counseling is the only 3000-level course that does not satisfy the Senior Requirement.
